

Critical Information Summary – IPSTAR Home Phone service

Information about the Service

IPSTAR Home Phone is a fixed line phone service designed to run on the existing copper phone network comprising of

- Connection to our public switched telephone network
- The ability to make and receive certain types of calls (subject to any conditions that might apply to particular types of calls)
- A Telephone number
- A free listing of the telephone number in a telephone directory under a name you propose and that we agree with.
- Service only available to new and existing IPSTAR nbn Sky Muster customers.
- If you are eligible for a bundle credit and one of the required services are cancelled then the standard rate for the remaining services that are left will apply.
- [Priority assistance](#) services are not available from IPSTAR
- Calls to 000 emergency services are not guaranteed in the event of a power outage

Availability and required equipment

You will need a standard telephone handset (approved for use in Australia) and you will need to also be located in an area that has access to the copper network and this area also needs to be serviceable by IPSTAR Australia.

Minimum Term

The minimum term is 30 days.

Included Features

The IPSTAR Home Phone comes with some great included features such as,

- Call waiting
- Call hold (with compatible handset)
- Call forwarding

Other features are available at an additional cost for more details please see <http://ipstarbroadband.com.au/support/home-phone-features/>

Installation Timeframes

After we accept your application for an IPSTAR Home Phone, we try to connect it on the date you request. However, that may not always be possible. In some circumstances we may not be able to make firm arrangements immediately or we may have to change a previous ~~firm~~ arrangement. We will endeavour to tell you beforehand if we cannot connect you on the requested date.

Information about Pricing

Installation Charges

The below table shows a list of the installation charges and when they would be applicable.
